About INWIZY

WHO WE ARE

Transforming businesses with intelligent cloud software

INWIZY Global Ventures LLP is a technology company headquartered in Gurugram, Haryana, India. We design and build AI-powered cloud software that helps businesses across industries replace manual processes, spreadsheets and paper registers with smart, real-time digital platforms. Our solutions are built to be ready-to-use, fully customizable and accessible from any device.

OUR VISION

To become the most trusted intelligent software platform for inventory-heavy and operation-intensive businesses across India and beyond.

OUR MISSION

To replace manual, error-prone processes with smart cloud platforms that give businesses real-time control, visibility and confidence in their operations.

- ✓ Easy to use — if you can use WhatsApp, you can use INWIZY
- ✓ Secure & encrypted cloud storage — your data is always safe
- ✓ Affordable, transparent pricing with no hidden costs
- ✓ Dedicated support & regular product updates for every client

INWIZY Inventory Management

AI-powered cloud platform for stock control, purchases, vendors, bookings, alerts, approvals and analytics.

AI-POWERED

INWIZY replaces spreadsheets and disconnected tools with a single intelligent platform giving teams real-time stock visibility, smart alerts, vendor workflows, purchase management, itemized bookings, POS invoices, approval trails and AI analytics.

BUILT FOR

- ✓ Labs & Research Institutions
- ✓ Universities & Educational Bodies
- ✓ Warehouses & Distribution Centers
- ✓ Procurement & Sourcing Teams
- ✓ Small & Medium Businesses (SMBs)
- ✓ Decor & Event Businesses

KEY CAPABILITIES

Smart Dashboard

Live stock status, catalog value, stock health, alerts and KPIs from one command center.

Smart Alerts

Low-stock, expiry, email & SMS notifications keep teams informed before issues arise.

InwizAI Chatbot

Ask inventory questions in natural language and get instant answers with CSV export.

Purchases & POS

Generate purchase requests, manage vendor quotes, create invoices and track receipts.

ALL FEATURES AT A GLANCE

Inventory Control

Track quantity, batches, vendors, expiry & item history.

Branch Transfers

Move stock between branches with full accountability logs.

Role-Based Access

Admin, manager and user permissions with approval trails.

Import & Export

Bulk-import existing stock and export reports with one click.

INWIZY Decor

The operating system for modern decor businesses — bookings, inventory, dispatch, returns, invoices and payments.

CLOUD ACCESS

ABOUT INWIZY DECOR

A ready-to-use cloud platform designed for event decoration and rental businesses. INWIZY Decor connects bookings, real-time decor inventory, warehouse movement, dispatch, return condition tracking, quotations, invoices and payment collection into one elegant system — so your team spends less time chasing and more time executing.

- ✓ Centralized decor booking and asset control
- ✓ Live view of available, reserved, at-site and repair stock
- ✓ Fast reservation, loading and dispatch workflow
- ✓ Connected quotation, invoice, payment and due reports
- ✓ Complete movement and condition trail for every item
- ✓ Multi-warehouse support — move assets between venues

CORE CAPABILITIES

Smart Bookings

Create confirmed bookings and reserve required decor items before anyone else uses them.

Live Inventory

Know exactly how many chairs, chandeliers, flowers and props are usable right now.

Dispatch & Return

Reduce loading mistakes and record what came back OK, damaged, repair or repaint.

Client & Payments

Track booking value, invoice amount, paid amount and outstanding balance.

Analytics

Find high-demand items, underused assets, stock gaps and profitable event categories.

Cloud & Mobile Ready

Teams update from office, warehouse or event site using any modern device.

INWIZY Consultancy

Recruitment & placement management — candidates, applications, placements, fees and auto GST invoices.

ABOUT INWIZY CONSULTANCY

Your recruitment agency, all in one place. Candidate records, resumes, placements, fees and auto GST invoices — everything your recruitment consultancy needs, organised and accessible from any phone or computer. If you can use WhatsApp, you can use INWIZY Consultancy.

- ✓ Candidate fills your application link themselves
- ✓ Resume uploaded with the form, attached to record
- ✓ Find a candidate: type a name or filter — instant result
- ✓ Mark Placed — dashboard counts it live automatically
- ✓ Auto-GST invoice generated the moment payment clears
- ✓ Renew plan online — upgraded instantly, no delays

6 CORE MODULES

Complete Candidate Profiles

Name, contact, qualifications, experience, expected salary & resume. Status: Active · Placed · Blacklisted.

Personal Application Link

Candidates self-register via your unique link. Entries land in your queue as Pending — invisible until approved.

Agency Dashboard

Active candidates, placement count, pending reviews, paid vs unpaid fees and 6-month intake trend.

Auto GST Invoices

A proper GST invoice is generated the moment a payment clears — correct numbering, downloadable anytime.

Custom Fields

Add fields for your niche — hospitality, IT, domestic help, healthcare. Application link updates automatically.

Fee Tracking

Track each candidate's service fee — Paid, Unpaid or Waived. Mark Placed when hired and Verified once checked.

INWIZY Matrimonial

Complete bureau management suite — digital biodata register, smart matchmaking and approvals.

PAPER NEEDED

ABOUT INWIZY MATRIMONIAL

Run your entire marriage bureau from one screen. Say goodbye to scattered biodata in notebooks, WhatsApp groups and loose photo printouts. INWIZY Matrimonial gives every marriage bureau owner a smart, secure digital register — where finding the right match takes minutes, not days. Setup takes under 10 minutes.

- ✓ Searchable digital register — Gotra, caste, city, income
- ✓ Smart match suggestions with community rules auto-checked
- ✓ Self-registration link — families fill their own details
- ✓ Private pending queue with owner approval before going live
- ✓ Horoscope and photo upload inside each biodata record
- ✓ Staff can manage records; billing stays with owner only

PLATFORM CAPABILITIES

Digital Biodata Register

Every bride and groom biodata under one searchable roof — organized by Gotra, caste, city and income.

Smart Search & Filters

Filter hundreds of biodatas in seconds by community, caste, horoscope, location, age or income.

Caste Matching Rules

Set community rules once. INWIZY auto-checks every suggestion and flags Gotra mismatches before showing families.

Custom Biodata Fields

Add any extra field your bureau always asks — sub-caste, native place, family type or special requirements.

Photo & Horoscope Upload

Attach horoscope files and photos directly inside each biodata. No more hunting through WhatsApp galleries.

Family Self-Registration

Share your bureau link. Families fill details and upload photos straight into your pending approval list.

Custom Software Solutions

Tailored enterprise software built around your workflow — real-time visibility, automation, reports and multi-location control.

ABOUT CUSTOM SOFTWARE

INWIZY builds software around your workflow — not the other way around. We already have powerful ready-made foundations from our product suite. We pick the closest match, tailor every detail to fit your operational requirements, and deploy it fast. Or, if needed, we build a completely custom platform from scratch.

- ✓ Easy to use and quick to implement — go live faster
- ✓ Cloud-based and fully secure with enterprise-grade encryption
- ✓ Customizable as per your specific business workflows
- ✓ Dedicated support team and regular product updates
- ✓ Affordable, transparent pricing — no surprise costs
- ✓ Scalable as your business grows across locations

CORE CAPABILITIES WE CONFIGURE FOR YOU

Real-Time Business Visibility

Monitor operations, team activities and key metrics from a single command center dashboard.

Smart Alerts & Notifications

Instant alerts for tasks, approvals, deadlines and critical business events.

Workflow Automation

Automate repetitive tasks and streamline business processes for greater efficiency.

Reports & Insights

Detailed reports and business intelligence to make informed, data-driven decisions.

Multi-Location Management

Manage your business across multiple locations, branches and teams from one platform.

Secure & Scalable

Enterprise-grade security with flexible solutions that grow with your business needs.
