BIODATA PRIVATE & SECURE

— THE OLD WAY

Registers, WhatsApp photos, and loose printouts.

A family walks in. You copy their details into a register, save their photo somewhere in WhatsApp, and match by memory. When a horoscope has to be checked, it goes to the pandit and comes back days later.

- ✗ Biodata torn, lost, or copied twice
- ✗ Photos buried in phone galleries
- ✗ Matching by memory, gotra slips through
- ✗ Kundli sent out, answer days later

— WITH MATCHIZY

One register, searchable, with kundli in a click.

Families register themselves through your link. You search hundreds of biodatas in seconds, run a real 36-guna kundli match between any two, and share a clean biodata PDF on WhatsApp — all from one screen.

- ✓ Families fill their own biodata
- ✓ Search by caste, city, income, manglik
- ✓ 36-guna kundli from real planetary data
- ✓ Biodata PDF shared in one tap

Every biodata you hold, *findable in seconds*

Full bride and groom profiles with community, caste, gotra, manglik status, income, photos and horoscope — one structured record each. Families register themselves; nothing goes live until you approve it.

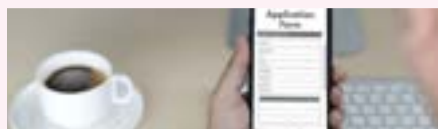

01 · BIODATA RECORDS

Complete Bride & Groom Profiles

Community, caste, gotra, manglik status, height, education, income, photos and horoscope — each biodata a structured record, not a page in a register.

- ❖ Height entered in cm or ft/in either way
- ❖ Horoscope file and photos on the record
- ❖ Mark a profile active or paused any time
- ❖ One record per person — no duplicates
- ❖ Kept private to your bureau alone
- ❖ Full family and contact details in one view

BRIDE · GROOM · ACTIVE

02 · SELF-REGISTRATION

Families Fill Their Own Biodata

Share your bureau link on WhatsApp, a visiting card or Facebook. Families open it on their phone, enter details and upload photos straight into your pending list.

- ❖ One link, opens in any phone browser
- ❖ Photos and horoscope upload with the form
- ❖ No account for the family to create
- ❖ Regenerate the link to cut off old copies
- ❖ Lands in your queue, never live at once
- ❖ Works from a WhatsApp forward or a QR code

ONE LINK · YOUR BUREAU

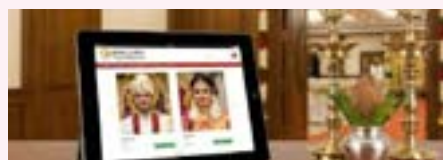

03 · REVIEW & VERIFY

Nothing Goes Live Until You Say

Self-registered biodata sits in a private pending list until you check it. Approve, reject, and award a Verified badge once you have seen the family's documents.

- ❖ Pending entries hidden until approved
- ❖ Approve or reject each in one tap
- ❖ Verified badge marks a trusted profile
- ❖ See who submitted, and exactly when
- ❖ Rejected entries never reach your register
- ❖ A clear count of what is waiting for you

APPROVE · REJECT · VERIFY

04 · SMART SEARCH

Find the Right Match Instantly

Filter hundreds of biodatas at once by community, caste, city, age, income, manglik status or any field you define — and show each family only what fits.

- ❖ Combine caste, city, age and income
- ❖ Filter manglik and non-manglik apart
- ❖ Search on any custom field you added
- ❖ Results in seconds, not a register hunt
- ❖ Choose which fields become filters
- ❖ Show each family only the matches that fit

COMMUNITY · CASTE · CITY

05 · CUSTOM FIELDS

Built for Your Community

Add the fields your bureau always asks — sub-caste, native place, family type, gotra or a special requirement. Your registration link updates to match.

- ❖ Text, number, date and choice fields
- ❖ They appear on your registration link
- ❖ Sub-caste, native place, family type
- ❖ Choose which ones become filters
- ❖ Change them later without losing data
- ❖ Your bureau's format, not a fixed template

FULLY CONFIGURABLE

06 · SHARE BIODATA

Send a Clean Biodata PDF

Turn any profile into a neat, bureau-branded biodata PDF and send it to a family on WhatsApp or email — one candidate, or a shortlist of several at once.

- ❖ One tap to WhatsApp or email
- ❖ Single profile, or a batch shortlist
- ❖ Only the fields you enable are shown
- ❖ Carries your bureau name and details
- ❖ No screenshots, no re-typing
- ❖ Send a whole shortlist to one family at once

— THE EIGHT KOOTAS — SCORED TO 36 GUNA

1 Varna	2 Vashya	3 Tara	4 Yoni	5 Graha Maitri	6 Gana	7 Bhakoot	8 Nadi	36 Total Guna
------------	-------------	-----------	-----------	----------------------	-----------	--------------	-----------	------------------

Each koota is scored from the couple's real Moon positions and added to a guna total out of 36, with a **Manglik check** layered on top — the same method a pandit uses, computed in seconds for any two profiles.

07 · ASHTAKOOT 36-GUNA

A Real Compatibility Score

Pick a bride and a groom and MATCHIZY scores all eight kootas into a guna total out of 36, with the percentage and a clear verdict

- ❖ All eight kootas scored automatically
- ❖ Guna total, percentage and verdict
- ❖ Needs one groom and one bride
- ❖ Runs between any two live profiles
- ❖ Answer in seconds, not days
- ❖ Re-run against other candidates instantly

36 GUNA · 8 KOOTAS

08 · REAL PLANETARY DATA

From the Sky, Not a Guess

Moon positions come from NASA's JPL Horizons ephemeris on the Lahiri sidereal zodiac — the same basis Indian astrology use

- ❖ NASA JPL Horizons planetary data
- ❖ Lahiri sidereal (Vedic) zodiac
- ❖ Moon computed once, then cached
- ❖ Uses each profile's birth date and place
- ❖ No third-party astrology black box
- ❖ Same basis a traditional pandit works from

JPL HORIZONS · LAHIRI

09 · MANGLIK CHECK

Dosha Flagged, Not Missed

Alongside the guna count, MATCHIZY checks Manglik status on both sides and caps the verdict when there is a mismatch —

- ❖ Manglik checked on both profiles
- ❖ A mismatch caps the final verdict
- ❖ Shown clearly next to the guna score
- ❖ Blockers explained in plain words
- ❖ Nothing hidden from the report
- ❖ Both sides checked before you propose a match

MANGLIK · DOSHA

10 · MATCH REPORT

A Report You Can Hand Over

Every match produces a written, easy-to-read report covering each koota and the manglik position — clear enough to share with a family that does not read charts.

- ❖ Plain-language write-up per koota
- ❖ Guna table and manglik position
- ❖ Unlock a pair's full report on demand
- ❖ Reads like a pandit's summary
- ❖ Share it with the family directly
- ❖ Kept with the pair so you can reopen it

WRITTEN · SHAREABLE

11 · PAY PER MATCH

Only Pay For What You Use

Kundli matching runs on credits — one credit per pair, ₹20 each. Top up in packs of 10, 25, 50 or 100, with bonus credits on the larger packs.

- ❖ ₹20 per matched pair — one credit
- ❖ Packs of 10 · 25 · 50 · 100
- ❖ Bonus credits on bigger packs

- ❖ No subscription for matching itself
- ❖ Every top-up comes with a GST invoice

12 · AT THE COUNTER

- ❖ Score returns in seconds at the desk
- ❖ Any two profiles in your register
- ❖ Show the guna total there and then
- ❖ Re-run against other candidates fast
- ❖ Turns a two-day wait into a minute
